

FOXN1 Antibody

Catalog No: #36869

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

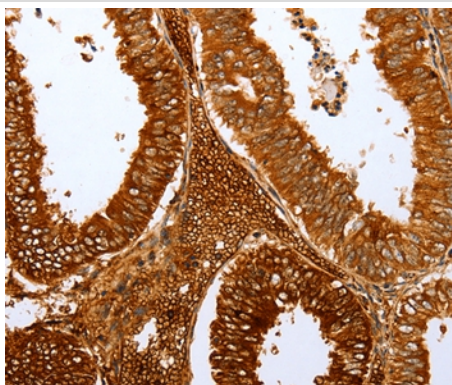

Description

Product Name	FOXN1 Antibody
Host Species	Rabbit
Clonality	Polyclonal
Purification	Antigen affinity purification.
Applications	IHC
Species Reactivity	Hu
Specificity	The antibody detects endogenous levels of total FOXN1 protein.
Immunogen Type	Peptide
Immunogen Description	Synthetic peptide corresponding to a region derived from internal residues of human forkhead box N1
Target Name	FOXN1
Other Names	WHN; RONU; FKHL20
Accession No.	Swiss-Prot#: O15353NCBI Gene ID: 8456Gene Accssion: NP_003584
Uniprot	O15353
GeneID	8456;
Concentration	0.6mg/ml
Formulation	Rabbit IgG in pH7.4 PBS, 0.05% NaN ₃ , 40% Glycerol.
Storage	Store at -20°C

Application Details

Immunohistochemistry: 1:25-1:100

Images

Immunohistochemical analysis of paraffin-embedded Human cervical cancer tissue using #36869 at dilution 1/15.

Background

Mutations in the winged-helix transcription factor gene at the nude locus in mice and rats produce the pleiotropic phenotype of hairlessness and athymia, resulting in a severely compromised immune system. This gene is orthologous to the mouse and rat genes and encodes a similar DNA-binding transcription factor that is thought to regulate keratin gene expression. A mutation in this gene has been correlated with T-cell immunodeficiency, the skin disorder congenital alopecia, and nail dystrophy. Alternative splicing in the 5' UTR of this gene has been observed.

Note: This product is for in vitro research use only
