Sequencing Grade Chymotrypsin

Catalog No: #RE013

Package Size: #RE013-1 100ug #RE013-2 1mg #RE013-3 10mg

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

Description	
Product Name	Sequencing Grade Chymotrypsin
Purification	Purity(SDS-PAGE): Single major band Purity(HPLC): 95%
Species Reactivity	1500 USP units/mg pro.
SDS-PAGE MW	24.02.4 kDa
Target Sequence	The amino acid sequence of sequencing grade chymotrypsin is identical to human chymotrypsin
Storage	Stability of storage:Sequencing grade chymotrypsin lyophilized should be stored under 2-8°C in sealed
	container. It is stable within 24 months. After dissolving with 50mM HAc, store at 2-8 °C, or use within 2 days. If
	the solution is stored at -20 °C or below, it is stable within 24 months. The solution should avoid repeated
	freezing and thawing and placing at room temperature a long time. Stability of transport: The product is stable

Product Description

Sequencing grade chymotrypsin is a recombinant serine endopeptidase expressed in Pichia pastoris, purified with HPLC, the gene sequence is the same as human chymotrypsin. Sequencing grade chymotrypsin hydrolyzes at the carboxyl side of aromatic amino acids residues: Tyr, Phe and Trp. Cleavage may also be observed, but at a lower rate, at Leu and Met. The optimal pH is 7.0–9.0.

by blue ice insulation transport.

Note: This product is for in vitro research use only
