

CENPB Polyclonal Antibody

Catalog No: #29953

Package Size: #29953-1 50ul #29953-2 100ul

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	CENPB Polyclonal Antibody
Host Species	Rabbit
Clonality	Polyclonal
Isotype	IgG
Purification	Affinity purification
Applications	WB
Species Reactivity	Mouse,Rat
Immunogen Description	A synthetic synthetic peptide of human CENPB (NP_001801.1).
Other Names	CENPB; centromere protein B
Accession No.	Swiss-Prot#:P07199NCBI Gene ID:1059
Uniprot	P07199
GeneID	1059;
Calculated MW	Refer to figures
Formulation	Avoid freeze / thaw cycles. Buffer: PBS with 50% glycerol, pH7.4.
Storage	Store at -20°C

Application Details

WB 1:500 - 1:2000

Images

Western blot analysis of extracts of various cell lines, using CENPB at 1:1000 dilution.

Background

This gene product is a highly conserved protein that facilitates centromere formation. It is a DNA-binding protein that is derived from transposases of the pogo DNA transposon family. It contains a helix-loop-helix DNA binding motif at the N-terminus, and a dimerization domain at the C-terminus. The DNA binding domain recognizes and binds a 17-bp sequence (CENP-B box) in the centromeric alpha satellite DNA. This protein is proposed to play an important role in the assembly of specific centromere structures in interphase nuclei and on mitotic chromosomes. It is also considered a major

centromere autoantigen recognized by sera from patients with anti-centromere antibodies.

Note: This product is for in vitro research use only
