

Nectin 4 Antibody HRP Conjugated

Catalog No: #C00545H

Orders: order@signalwayantibody.comSupport: tech@signalwayantibody.com

Description

Product Name	Nectin 4 Antibody HRP Conjugated
Host Species	Rabbit
Clonality	Polyclonal
Isotype	IgG
Purification	Purified by Protein A.
Applications	WB
Species Reactivity	Hu Ms Rt
Immunogen Description	KLH conjugated synthetic peptide derived from human Nectin 4
Conjugates	HRP
Target Name	Nectin 4
Other Names	Ig superfamily receptor LNIR; Nectin 4; poliovirus receptor-related 4; PRR4; poliovirus receptor related 4.
Accession No.	NCBI Gene ID59341
Uniprot	Q9HBA0
GeneID	59341;
Excitation Emission	N A
Concentration	1mg ml
Formulation	0.01M TBS(pH7.4) with 1% BSA, 0.03% Proclin300 and 50% Glycerol.
Storage	Shipped at 4°C. Store at -20°C for one year. Avoid repeated freeze/thaw cycles.

Application Details

WB=1:500-2000

Background

This gene encodes a member of the nectin family. The encoded protein contains two immunoglobulin-like (Ig-like) C2-type domains and one Ig-like V-type domain. It is involved in cell adhesion through trans-homophilic and -heterophilic interactions. It is a single-pass type I membrane protein. The soluble form is produced by proteolytic cleavage at the cell surface by the metalloproteinase ADAM17 TACE. The secreted form is found in both breast tumor cell lines and breast tumor patients. Mutations in this gene are the cause of ectodermal dysplasia-syndactyly syndrome type 1, an autosomal recessive disorder. Alternatively spliced transcript variants have been found but the full-length nature of the variant has not been determined.

Note: This product is for in vitro research use only
