## Description

|                       |                                                         |
|-----------------------|---------------------------------------------------------|
| Product Name          | SERINC1 Rabbit Polyclonal Antibody                      |
| Host Species          | Rabbit                                                  |
| Clonality             | Polyclonal                                              |
| Isotype               | IgG                                                     |
| Purification          | Affinity purification                                   |
| Applications          | WB,IHC                                                  |
| Species Reactivity    | Human,Mouse,Rat                                         |
| Immunogen Description | Recombinant protein of human SERINC1.                   |
| Conjugates            | Unconjugated                                            |
| Other Names           | TDE1L;TDE2;TMS-2;TMS2;SERINC1                           |
| Accession No.         | Swiss Prot:Q9NRX5GeneID:57515                           |
| Calculated MW         | —                                                       |
| Formulation           | Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3. |
| Storage               | Store at -20°C. Avoid freeze / thaw cycles.             |

## Application Details

WB□1:500 - 1:2000IHC□1:50 - 1:200
