

## Acetyl-CoA Carboxylase Rabbit mAb

Catalog No: #56097

Package Size: #56097-1 50ul #56097-2 100ul

## Description

|                       |                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------|
| Product Name          | Acetyl-CoA Carboxylase Rabbit mAb                                                                         |
| Host Species          | Rabbit                                                                                                    |
| Clonality             | Monoclonal                                                                                                |
| Isotype               | Rabbit IgG                                                                                                |
| Purification          | Affinity-chromatography                                                                                   |
| Applications          | WB IHC                                                                                                    |
| Species Reactivity    | Human Mouse Rat                                                                                           |
| Specificity           | Acetyl-CoA Carboxylase Antibody detects endogenous levels of total Acetyl-CoA Carboxylase                 |
| Immunogen Description | A synthesized peptide derived from human Acetyl-CoA Carboxylase                                           |
| Conjugates            | Unconjugated                                                                                              |
| Other Names           | ACAC; ACACA; ACACB; ACC; ACC-alpha; ACC1; ACC2; ACCA; ACCB; Acetyl-CoA carboxylase 1; Biotin carboxylase; |
| Accession No.         | Uniprot:Q13085/O00763                                                                                     |
| Calculated MW         | 265kDa                                                                                                    |
| Formulation           | Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.        |
| Storage               | Store at +4ℳ C short term. Store at -20ℳ C long term. Avoid freeze / thaw cycle.                          |

## Application Details

WB:1:1000~1:2000IHC:1:50~1:200

## Images

Immunohistochemical analysis of paraffin-embedded human kidney, using Acetyl-CoA Carboxylase Antibody.
